A transformational walk with the family soul . . .

Family systems constellations reveal those places where one suffers out of loyalty to the challenges, wounds, and fears of the past in the system. Being disconnected from our lineage, land and stories, many modern souls are searching for the inclusion which is so often found in a simple movement in the Circle. Walking with the ancestors, we will introduce respect, and the incorporation of ancient healing wisdom traditions and ritual in life and systems constellations.

In this workshop, participants will:

- ~Be introduced to family system constellation work
- ~Be encouraged to consider the family system dynamics in their own background, including the *orders of love* and *victim/perpetrator dynamics*.
- ~Experience a constellation whether their own, standing in as a representative, or as an observer. Francesca's bi-cultural background, her extensive experience and her ability to integrate this healing methodology with her Native American background offers us gifts of understanding that are truly unique. We feel uplifted simply by being able to offer this presentation and workshop.

"This is one of the most profoundly beautiful healing paths that can be taken. This work for me is an extension of ceremony, a road of indigenous healing." --Francesca Mason Boring
