

Advanced Systems Constellation Facilitator Training
With Francesca Mason Boring- All My Relations Constellations

August 10-12, 2018

Blueberry Gardens Healing Center, Ashton, Maryland

This *advanced* program is for those who are passionate about making Systems Constellation work accessible and encouraging those called to facilitate this work.

An intensive experience for trained facilitators, this is an opportunity to be current on new developments in systems constellation, network, observe or participate in case supervision and find support in the bond of deep soul collaboration in the facilitation of Family, Nature, Organizational Systems Constellation and Constellation as Ceremony.

The approach to this training is phenomenological as well as constructivist and utilizes the Universal Indigenous Knowing Field with respect for multi-cultural/multi-ethnic fields as well as lands and ancestors.

Completion of a full Systems Constellation Facilitator Training is required for attendance. If one has not completed training with All My Relations Constellations, Inc., verification of completion of other training may be requested upon registration.

Be supported and expand your skill and knowledge base as a facilitator of Systems Constellation. Remember how to nurture the body, mind, soul, and your calling.
