

Strengthening Love & Daring to Bloom

With Family & Human Systems Constellation

April 27-28, 2024 > Altadena, California

Francesca Mason Boring

All My Relations Constellations

In life-partner and family relationships, in work, in life, do you have permission to have an open heart, passion, and happiness? Do systemic dynamics diminish your joy?

Family & Human Systems Constellation and Constellation as Ceremony brings new insight and strengthens the flow of love which may be blocked by systemic/historical trauma and pain. Constellations rekindle systemic confidence in love, trust, affection, fulfillment, and appreciation in relationships. With grounded respect we explore what is invited by the Circle. Spring brings new growth and systems constellations allow love and connection to blossom.
