Constellation as Ceremony Workshop

With Francesca Mason Boring  
All My Relations Constellations

Healing Arts Center of Altadena, California

May 30-31, 2026

*Restoring belonging with the support of the ancestors, and the integrity of systems constellations. We have opportunity to remove hidden dynamics which have contributed to our being stuck, unable to fully embrace joy, fulfilling connections and well-being in our lives. New light, new insight, new hope can shift the dynamics that have unconsciously imposed painful limitations. Together we open the door to the flow of life, love and connection.*
